Johnson Custom Medical Testing/Examination Bodies

Custom Johnson Premier bodies are used bring medical test/examination equipment to areas where existing medical facilities may be difficult to reach. Or, to bring the test equipment directly to a patients home in rural and outlying areas. These are mobile medical offices with MRI or Radiation equipment, or for blood transfusions, etc. Sanitation is critical. This is why Johnson Premier bodies are used with the ArticTherm[™] seamless fiberglass interior liner. Features/benefits include:

- Insulated climate controlled environment with precise digital temperature control
 - Mechanical blower for heat and cooling
- Universal straight bodies (16 to 28-ft.)
- Heavy duty flooring supports for medical equipment
- Built-in compartments/options for special medical needs/requirements
- Doctor/patient consulting area
- Single swing side door with stair case steps for easy patient boarding
- Driver/patient safety: Easy access/exit, wheel chair lift option. Three-point safety with grab handles and steps
- Roll-up, or double-swing rear doors for loading equipment
- Stainless hardware
- Driver safety: Easy access, less lifting. 3-point contact with grab handles and steps.
- Safety accessories: Back-up, parking cameras, Safety alarms and sensors, LED light packages.
