Johnson Refrigerated Truck Bodies and Navistar Launch Refrigerated Truck Demo Road Show

RICE LAKE, WI (April 7, 2008) – Johnson Refrigerated Truck Bodies and Navistar, Inc. are putting the pedal to the metal with a debut road show that will take innovative refrigerated transport technology to customers' doorsteps across the country. A fleet of Johnson Premier Truck Bodies equipped with RouteMax™, all-electric clean and green refrigeration mounted on the International® DuraStar™ truck chassis with MaxxForte DT engines will hit the road in early April.

Touting the facts about technology in print and on the Web is one thing, but a hands-on test allows customers to validate the equipment for their specific cold transport needs. With cutting-edge technology like this, Johnson and Navistar wouldn't have it any other way.

"We want to give customers a taste of what the latest in technology can do for their refrigerated distribution operations," says Mayo Rude, director of sales and marketing at Johnson. "Customers will get to drive the demos and test them for a period of time if need be; evaluating the equipment in person will help them see the benefits first hand."

For more information on the Demo Road Show, go to www.johnsontruckbodies.com.

About Johnson Refrigerated Truck Bodies

Johnson Truck Bodies is recognized as the industry leader in refrigerated transport. With headquarters in Rice Lake, Wisconsin, Johnson is the innovator and manufacturer of molded fiberglass refrigerated truck bodies and specialized trailers that range from 6 to 36 feet in length. Johnson has a reputation of quality, durability, and engineered refrigeration solutions, both standard and custom, that are designed for many years of maintenance-free delivery. In business since 1932, Johnson Refrigerated Truck Bodies is a CARLISLE Company. Additional information is available at 800-922-8360 and www.johnsontruckbodies.com.

About Navistar

Navistar International Corporation (Other OTC: NAVZ) is a holding company whose wholly owned subsidiaries produce International® brand commercial and military trucks, MaxxForte™ brand diesel engines, IC brand school and commercial buses, and Workhorse brand chassis for motor homes and step vans. It also is a private-label designer and manufacturer of diesel engines for the pickup truck, van and SUV markets. The company also provides truck and diesel engine parts and service. Another wholly owned subsidiary offers financing services. Additional information is available at www.Navistar.com.
